HONOR

LONGO IS a highly-respected contractor with over 40 years experience in general construction, laboratory and library interior fit-outs, and turnkey projects. Our team of project managers, engineers, and specialists will ensure your project is built to specification, completed on time and within budget.

## GENERAL CONSTRUCTION

## LABORATORY PLANNING

## CASEWORK & FUME HOODS

## LIBRARY DESIGN & FURNITURE

## AUDITORIUM SEATING

## PROJECT COORDINATION

## INTERIOR DESIGN

## Lab design is not an **experiment**.

Labspace planning and building is a complicated and costly undertaking. A successful laboratory construction project requires experience with laboratory design, furniture selection, scheduling, coordination of trades, and technical construction knowledge. Our consultants will help you get it right the first time.

---

## We create unique, **innovative**, and distinctive library environments.

Today's library is more than a room housing books. It is a vibrant media center that requires a dynamic aesthetic setting with high functional capability. Longo can work closely with your architect or building committee to provide space planning, budgeting and procurement, furniture selection, project management and installation services.

LONGO IS A DEDICATED ADVOCATE OF

# GREEN BUILDING PRACTICES!

**At Longo,** our mission statement guides us to adhere

to *environmentally responsible* construction

processes, from building designs to waste generation. Longo takes

*special care* to utilize construction materials and interior finish

products that promote the *longevity* of building use, indoor

air quality and lowered energy consumption. Building materials

must be of *sustainable* origins, recycled easily or have a high

recycled content. In addition, we are committed to using *local*

subcontractors and promote the use of locally produced goods.
